

EHEIM

aquastar 54 LED

This aquarium comes with energy saving LED lighting and an array of other features. Complete with filter, heater and thermometer.

- Tank size 54 l – ideal for beginners
- Bottom trim that improves the appearance
- Slim cover design (height only 30 mm)
- Cover can be open completely for maintenance and service work (fold-able); LED can easily be shifted
- The food lid also serves as handle and can be removed any time for automatic feeder (EHEIM autofeeder)
- LED lighting energy-efficient and high-performing (800 lm at 12 W) with full solar spectrum (daylight 6.500 K)
